Group size: 6 - 8 people and 9 - 16 people

Programme availability: 01 April - 31 October

Equipment: binoculars, telescope, boat, safety vests, waterproof luggage tanks

What to bring: Waterproof clothes, light sport footwear, backpack or light bag, binoculars, and photo camera.

Introduction:

This programme is a combination of a boat tour and hiking, exploring the Danube wilderness, armbands, sand islands, eagles' nests, animal waterholes. Make photo memories of the unique landscapes of the wide Danube horizons, ancient forest banks, Drava - Danube delta...

Programme description:

The best time to begin the Danube photo safari is early dawn or early morning. After arrival in the Eco Centre Zlatna Greda, our guide will introduce you to the programme, equipment and locations to be visited. We're off to Green Island near Batina, where we embark by boat and start our Danube Photo safari. Depending on the water level we put on armbands, stop from time to time to enter the flooded woods, to find the waterholes, white - tailed eagles nests, or red deer herds. On one of the Danube's last sandbanks, we refresh ourselves and rest. In summer, the sand island is the perfect spot for bathing. With scenery of endless sand shores, and blue Danube water it is ideal for panoramic photos. These banks are often visited by wild boar, deers with their young, and from above, the situation is monitored by the masters of the sky, white - tailed eagles. The last stage of our voyage is a navigation through Kopački rit Nature Park with a few stops at interesting places. When we turn our engine off, we glide in silence and listen to the sounds of wildlife that we can almost touch.
